

DRAFT

Negotiating Committee-Storm Water September 29, 2011

Option I

Issues involving storm water engineering where storm water crosses Village/ Town boundaries shall be engineered by and paid for by the respective Municipal source of the drainage. Resulting plans shall be reviewed by the opposite Municipality's Engineer and shall be subject to approval by the opposite Municipality. Contact and input by both party's Engineers shall be encouraged during the engineering process. Each party shall pay for its respective engineering costs.

Option II

The parties agree to set up Storm Water Study Areas, such as:

1. Durst Valley
2. Neuchatel
3. Valle Telle Run Off Area
4. Other

Engineering Costs shall be split between the Parties.
